Education

Graphic Era Hill University

Bachelor of Technology in Computer Science and Engineering

CGPA-8.01/10

july 2019 – july 2023

Dehradun, Uttarakhand

Projects

SkillHub | *React.js, Express.js, Prisma, PostgreSQL* | [🔗](#) | Deployment

Current

- Created an Collaborative Skills Exchange Platform.
- Implemented Frontend using React.js and Backend Using Express.js.
- Implemented a Realtime Communication feature using Socket.io.
- Used PostgreSQL with help of Supabase and Prisma ORM to handle Data mutations.

TwitterX | *Next.js, Prisma, supabase* | [🔗](#) | Deployment

January 2023

- Created a polished Twitter clone using Next.js, optimizing UI/UX with responsive design.
- Implemented real-time updates, External Api integration, and data management using Supabase and Prisma
- Utilized Supabase Auth to register users to the application
- Added Various functionalities such as Liking a tweet, commenting on it, and bookmarking it.

Credit Card Fraud Detection system | *python, Flask* | [🔗](#)

September 2022

- Built a Machine learning model to identify fraudulent transactions using Random forest algorithm.
- Used Flask to make two routes: GUI input and direct API calls
- Addressed class imbalance for effective fraud detection and also Understood the impact of preprocessing on model performance.

Leadership Experience

TS-Foundation

September 2022 – October 2022

Team Leader

Related Documents and Certifications

- Led a dynamic team in the successful development and launch of a website for Tanmay sachin Foundation
- Orchestrated and led a team of 25 interns in the successful development and launch of Website
- Worked closely with designers, content creators, and developers for a cohesive and successful website launch.
- Contributed significantly to the NGO's mission by leveraging technical expertise to enhance online visibility and user engagement
- Worked on Technologies like Next.js , React.js , Tailwind CSS and Node.js

Technical Skills

Languages: C++, HTML/CSS, Typescript, SQL , PYTHON

Front-End Frameworks/Libraries: React.js , Tailwind CSS , Material UI , Axios , Redux

Back-End Frameworks/Libraries: Express.js , Node.js , Socket.io , Prisma

Technologies: Git, Github

Famlier With: Csharp , React Native , Java , dotNET , Cryptography

Research Experience

Crowd Social Distance and Mask Detection

September 2023

Using Classical Machine Learning

Approved by AICTE, New Delhi

- Contributed to published research focusing on the practical application of social distancing and mask detection technologies.
- Demonstrated effective collaboration and project management skills within a research team.
- Applied existing knowledge to address relevant issues, resulting in a successful publication.
